SUBJ: **PROPOSED FY 2003/2004 BUDGET**

DATE: July 29, 2003

I am transmitting herewith a proposed budget for the fiscal year beginning November 1, 2003 and ending October 31, 2004.

The following report from the Associate CAO - Finance and Management provides a comprehensive insight into each major fund of the proposed budget. Notable from my perspective are the following budgetary considerations.

- The proposed budget will again be a balanced one.
- In the current and proposed fiscal years, we will have experienced a collective \$3.3 million increase in our employer contributions to the statewide Fire, Police and, to a lesser extent, the other retirement systems to which the Consolidated Government belongs.

In the absence of new revenues that would have been offsetting to that, it is significant that we were still able to present a balanced budget. The impact of that, however, was (1) that of our having had to submit to you what is, with very limited exception, a status quo City General Fund budget and (2) that our not having been able to fund certain line items that we would have otherwise recommended.
- Because the extraordinary infrastructure catch-up effort and expanded programs of recent years have, in effect, become the "norm," there should be mindfulness that even a status quo budget for the Consolidated Government is at this particular time still ambitious.

Through use of open work orders and bond funds, the proposed budget, as an example of that, projects that the unprecedented ongoing infrastructure catch-up effort will continue at the same level during the new fiscal year. Development of drainage retention/detention areas that would serve the needs of the parish as a whole will be a key focus of Public Works in the new fiscal year.
- On November 1, 2003, the budget proposes to implement new pay plans for the Fire and Police departments (and the City Marshal's operation) that will enable us to more effectively recruit and retain police officers and firefighters who serve as our front line in keeping our community safe in today's post 9/11 world.
- In the form of a proposed 4% general increase for non-fire and police employees, the budget recognizes the salary needs of those employees who have also done a good job for us.

PROPOSED FY 2003/2004 BUDGET

July 29, 2003

Page 2

- Because of good proactive administration of our self-insured employee hospitalization program by our Risk Management Division, we will be able, for the third year in a row, to avoid increasing employee premiums in that program.
- Funding that remained in the Sales Tax Budget after basic departmental pay-as-you-go needs were addressed was allocated to (1) different intersectional and other improvements that can be accomplished within relatively short periods of time with significant impact on traffic flow and (2) the initial phase of replacing our 1980-vintage traffic control system with today's technology.

The CAO and the Director of Traffic and Transportation, who have jointly recommended this, will be in a position to more comprehensively address the scope of what is being proposed in the appropriate budget hearing.

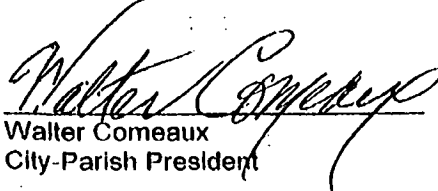

In no small way, the budget-financed programs of the Consolidated Government have influence on the economic vitality of our community. As I write this message to you, there is good economic news in our community.

- Building activity in the community in this current year appears to be approaching a record high.
- Lafayette MSA ranks 2nd in the state in new job growth (La. Dept. of Labor; La. Economic Outlook 1998-2002).
- Lafayette Parish ranks 3rd in the state in per capita income (2001 Bureau of Economic Analysis).
- All bonds of the Consolidated Governments bonds (LUS - LPPA - General Obligation - Sales Tax) today enjoy "A" ratings.
- We are in the process of completing ahead of schedule the most massive infrastructure catch-up effort ever and, as a result of that, have postured the Lafayette community for additional growth and development.

The budget that I am submitting proposes to continue the positive role of the Consolidated Government in the visible prosperity of our Lafayette community. In closing, I would like to express my appreciation to Associate CAO-Finance and Management Becky Lalumia and her staff, CAO Glenn Weber and the departmental directors for the team effort that was involved in the budget preparation effort.

As I write this, my last budget message to the Council, I feel privileged to have led such a resourceful and dedicated group of career governmental professionals who truly know the business of government. I need to also say that all that we have accomplished under the first two terms of the Consolidated Government would not have been possible without the unfailing support and resources that the community has given to us.

My staff and I will be available during budget hearings to speak to any aspect of the proposed budget.

Walter Comeaux

FY 2003-04 Adopted Budget

DATE: October 30, 2003

OVERVIEW

In accordance with Section 5-02 of the City-Parish Charter and the guidelines established by your office, attached are the Lafayette Consolidated Government Operating and Capital Improvement Budgets for the FY 2003-04. This document reflects a balanced budget totaling **\$431,780,059**, including inter-fund transfers and capital expenditures other than the multi-year capital outlay bond program. In addition, the City of Lafayette Non-Utilities Multi-Year Capital Improvement Budget totals **\$169,547,411**. The following is an explanation of some budget highlights with comparisons to the FY 2002-03 Adopted Budget.

REVENUES

Total estimated revenues from all sources reflect almost no change at a 0.6% increase over the FY 2003 Adopted Budget. The Utilities System revenues increased \$3.9 million (2%). Property taxes and sales taxes also reflect increases. Property Tax totals increased about \$6.3 million due mainly to three new millages implemented for police and fire salaries and for the library system's operations and construction. Sales taxes are budgeted at a 3% overall increase, or \$2 million. Intergovernmental revenues and prior year fund balance use declined to offset some of these increases, as did interest income and other miscellaneous revenues.

APPROPRIATIONS

Overall, total appropriations are also unchanged having increased only 0.6%. However, this is the net effect of several individual increases and decreases that offset each other. Except for the Utilities System, the departments' operational budgets are mostly status quo with only some minor adjustments allowed. Various appropriation changes are more fully described in the following paragraphs.

PERSONNEL:

A total of twenty-seven additional authorized positions have been funded; 19 full-time and 4 part-time. Thirteen additions are included for the latter half of the year for the new golf course under construction. Five full-time and four part-time positions are for the Library system's expansion and branch needs, and two positions have been added in the Utilities System. The remaining manning table changes are the deletion of two janitors at the courthouse complex, the addition of one accountant in the Finance Department, one PC specialist in Administrative Services, and three Deputy City Marshals.

A major challenge in this year's budget was the significant increases in retirement costs for employees. Fire and police retirement systems' rates each more than doubled, while the retirement systems for other employees increased by 38% to 50%. This caused about \$2.6 million in additional costs in this budget. While interest rate declines required us to lower our income expectations, they did allow us to realize some long-term savings by refinancing our debt obligations. The annual retirement cost related to the police and fire pension system mergers was reduced an average of \$400,000 annually due to refinancing.

Funding for pay plan adjustments resulting in significant increases in starting pay for the classified fire and police personnel is included at a cost of \$3.8 million. These adjustments were necessary to improve emergency personnel hiring and retention and will significantly increase the competitiveness of these salaries. A general pay increase of 4% has been included for all other full-time employees not included in the classified fire and police pay plans.

OTHER APPROPRIATIONS:

Increased operating costs are also included for the new golf course under construction. The Utilities System operational appropriations excluding fuel and purchase power have increased 7.4%, while fuel and purchase power costs increased 5%. Non-utilities debt service increased 14%, and pay-as-you-go capital outlay declined \$7.7 million, or 42%. Total non-utilities operational costs increased 5%, mainly for the personnel, retirement, and pay plan adjustments described above.

UTILITY FUND

This budget year, the Utilities Department total receipts are projected to increase \$3.9 million, or 2%. Operating receipts reflect moderate increases in retail electric, water and wastewater sales, about 2% overall. Additionally, revenues include projected increases due to rising fuel costs passed through on the fuel cost adjustment clause rate. An increase in revenues is also included for a scheduled wastewater rate increase of 10%. The wastewater rate increase is needed to assist with major capital improvements required for wastewater collection and treatment and to reduce the wastewater system's reliance on subsidization from electric rates. Wholesale electric sales are expected to remain the same compared to 2003.

Operating appropriations of the Utilities System reflect an increase of approximately \$8 million, or 6%. Fuel and purchase power costs make up \$5.2 million of this increase (5%) compared to the FY 2003 Adopted Budget. This is a function of projected increases in natural gas prices. Other operating costs, exclusive of fuel, are budgeted at a 7.4% increase. These cost increases include the cost of a general pay increase for employees, the annualized cost of the market-aligned pay adjustments approved in mid 2003, retirement costs, insurance premiums and uninsured losses, and generator maintenance costs.

Funding for capital expenditures is included totaling \$11.9 million for normal capital and special equipment, and \$1 million for retained earnings capital. The Utilities Five-Year Capital Outlay Plan totals \$192,195,000 and provides for major capital improvements to our system, including new electric generation in FY 2005. The Five-Year Capital Outlay Plan is funded with anticipated bond proceeds of \$184 million and the remainder from Retained Earnings Capital.

SALES TAX FUNDS

CITY:

Steady sales tax growth has continued in the City sales taxes, increasing about 5% for the fiscal year through September, 2003. FY 2003-04 projections reflect a 5% increase over the FY 02-03 Adopted Budget and a 3% increase over currently projected 2002-03 collections.

The results of the sales tax funds are as follows:

1961 Sales Tax: The total sales tax revenues projected from this source is \$29,520,898, an increase of \$1,577,532 over last year. Thirty-five percent (35%) of this revenue is dedicated to general fund purposes, amounting to \$10.3 million, or \$534,419 more than the FY 02-03 Adopted Budget. The remaining sixty-five percent (65%), amounting to \$19.2 million, or an increase of \$1,043,113, is dedicated to capital improvements and debt service.

1985 Sales Tax: The total sales tax revenues projected from this source is \$26,137,339, an increase of \$1,141,487 over the FY 02-03 Adopted Budget. Thirty-five percent (35%) of this revenue is dedicated to general fund purposes, amounting to \$9.2 million which is \$384,319 above the adopted budget of last year. The remaining sixty-five percent (65%), amounting to \$16.9 million, or an increase of \$757,168, is dedicated to capital improvements and debt service.

The FY 03-04 City Sales Tax CIP Proposed Budget projects no prior year fund balance to be available in this fund for carryover at October 31, 2003. However, \$120,556 has been placed in the Council's CIP Reserve for contingencies.

PARISH:

Parish sales tax revenues have been projected at a 2% growth rate over FY 2003. The Parish sales tax collections continue to fluctuate widely from month to month and through September, 2003 had declined 7% over the same time period in 2002.

GENERAL FUND

The LCG's general funds revenues have increased about 7%, as did appropriations. There is no projected use of fund balance in this budget for the City general fund, and a use of \$405,544 in the Parish general fund.

The City General Fund revenues reflect a \$4.3 million increase, or 7%. This is mainly attributable to two new property tax millages dedicated to police and fire salaries and related benefits. This new revenue source is projected to generate additional revenues of \$3.6 million, which is a 6% increase on total revenues. Additionally, a 3% growth in sales tax revenues and 2% in other revenue sources is included. The Utilities System Payment In-Lieu-of-Tax projection reflects a decrease over the FY 2003 adopted amount, but it does include the additional \$5,000,000 generated from the assumed renewal of the fuel restoration clause.

The Parish General Fund revenues reflect a net total increase of 9%, or approximately \$893,000. This is due to an internal transfer of funds from the Road & Bridge and Drainage Maintenance Funds. Net combined external revenue sources decreased somewhat. Sales tax revenues indicate a 15% decline compared to the FY 2003 adopted budget. Other revenue sources are projected at minimal 2% growth rates.

Overall, the combined General Fund appropriations have increased approximately \$5.3 million (7%). This is mainly due to the new tax revenues dedicated to police and fire salary increases of \$3.8 million, other employee pay increases, and increased retirement costs. Uninsured loss amounts increased about \$500,000 and operating cost additions are included for the new golf course maintenance and operation. Additionally some one-time funds are set aside for Hurricane Lili costs not reimbursed from federal or state sources.

The projected fund balance for the City general fund at October 31, 2004, is \$13.6 million, and the Parish fund balance is projected at \$3.8 million. The projected use of fund balance of \$405,544 in the Parish general fund brings that total down to the emergency reserve level. The City's fund balance is not used, and a reserve of \$303,674 remains uncommitted.

GROUP HEALTH/LIFE INSURANCE FUND

For the third consecutive year, we are making no changes to self-insurance premiums for group hospitalization insurance in the proposed budget. The premium increases implemented in FY 00-01, along with the PPO, are expected to continue to be adequate for estimated claims levels. Therefore, the total premium and employee/employer distribution remain the same. Life insurance rates have increased however, and are included at \$.29 per \$1,000 instead of the previous rate of \$.19 per \$1,000. Total premium contributions and other revenues generate \$10.9 million for self-insured group hospitalization and life expenses.

The current premium structure for group health insurance is shown in the following table.

	Monthly Premium
<u>Employee Coverage:</u>	
Employee Cost	\$ 43.00
LCG Cost	<u>155.00</u>
Total Single Coverage	\$198.00
<u>Family Coverage:</u>	
Employee Cost	\$141.00
LCG Cost	<u>350.00</u>
Total Family Coverage	\$491.00

FUND BALANCE

Some fund balances will be available at current fiscal year end in the major funds. The projected fund balances included for budget purposes are as follows:

GENERAL FUND	CITY	PARISH
Restricted for cash flow/emergency reserve	\$ 6,000,000	\$ 3,500,000
Projected fund balance from current year-end	\$ 7,000,000	\$ 405,544
Appropriated in 2003-04 Proposed Budget	\$ -0-	\$ 405,544
CITY SALES TAX CAPITAL FUND		
Projected fund balance from current year-end	\$ -0-	
Appropriated in the 2003-04 Proposed Budget	\$ -0-	

MULTI-YEAR CAPITAL OUTLAY PROGRAM

The City of Lafayette Non-Utilities Multi-Year Capital Outlay Program totals **\$169,547,411**. Of that amount, \$101,350,000 is financed with bond proceeds over a five-year period. Major capital improvements are continuing, utilizing the \$229,000,000 bond authority approved by the voters in 1997. We have been balancing our capacity to issue bonds with our ability to pay for them from sales tax proceeds in order to maintain adequate coverage ratios and pay-as-you-go funds. The remainder of the \$229,000,000 authority will be depleted in the first three years of the Capital Outlay Program. Future authority of \$66,400,000 will be needed to complete the 5-year program as presented.

To date, we have issued \$184.8 million of the \$229 million authorization and will shortly issue another \$23.1 million in sales tax bonds. The rapid issuance of bonds for large capital projects is having a noticeable impact on the level of sales tax pay-as-you-go funds. Since 1996, \$210,800,000 of bonds have been issued. The annual debt service on all sales tax bonds in 1996 was \$13.2 million, currently is \$29.1 million, and by the end of the five-year program is expected to reach \$37.4 million.

CLOSING

Overall, the financial condition of these major funds is strong. City sales tax revenues and Parish assessed valuation continues their steady growth. The City General Fund enjoys the advantage of a strong in-lieu-of-tax payment by the City-owned Utility System. The Utility System is sound and growing modestly, but the reduction of electric wholesale sales and increased operating costs will reduce profit levels in the short term. The Parish general fund continues to labor under the ever-increasing demands of the court system and correctional centers without corresponding revenue increases. We have completed or put under construction major infrastructure improvements while safeguarding our coverage ratios and credit ratings. Future challenges will continue to include personnel and pay competitiveness and slow revenue base expansion, while meeting the needs of a progressive, growing community.

I wish to thank you, the CAO, Directors, Budget Manager, the budget staff and my staff for their assistance in preparing this document. We look forward to working with you and the Council in implementing this financial plan for the LCG's upcoming fiscal year.

Sincerely,

A handwritten signature in cursive script that reads "Becky Lalumia".

SECTION 3: NOW, THEREFORE, BE IT ORDAINED that, in accordance with the applicable provisions of the Home Rule Charter of the Lafayette City-Parish Consolidated Government, including but not limited to Sections 5-01 through 5-03, inclusive, and in accordance with Sections 2-11 through 2-13, inclusive, of said Home Rule Charter of the Lafayette City-Parish Consolidated Government, the Lafayette City-Parish Council does hereby approve the said Proposed Operating Budget as amended in the attachments hereto and which are made a part hereof and which will be identified in said final document under the title "Adopted Budget FY 03/04".

SECTION 4: BE IT FURTHER ORDAINED that the following qualifications shall apply to the implementation and administration of the adopted budget:

- A. Pay reserves have been established for classified Fire, Police and City Marshal pay plan adjustments. The City-Parish President is hereby authorized to transfer said reserves via administrative budgetary revision to the appropriate accounts within the Fire, Police, and City Marshal Departments upon approval of the applicable classified pay plans. The applicable pay adjustments will be effected with the first full pay period in FY 2003/04 which begins on November 9, 2003, assuming pay plans approvals have been completed by that time.

- B. State law requires that certain fireman be given a 2% longevity salary increase. Accordingly, the salary increases included herein for eligible fire personnel shall be deemed to include the 2% “longevity” salary increase required by State law for the fiscal year 03/04.
- C. Pay reserves have been separately established for park rangers and animal control officers. It is intended that a minimum 4% general increase will be effective for these employees until Civil Service Board action is taken to amend and adjust the pay of these positions, at which time the City-Parish President is hereby authorized to transfer said reserves via administrative budgetary revision to fund any additional Civil Service approved pay adjustments in the appropriate budgetary accounts.
- D. Pay reserves have additionally been provided for a 4% general increase for remaining employees not included in the classified fire, police and City Marshal classified pay plans, and those not included in market-driven salary adjustments. Employees in the group who are eligible for and will receive and/or have recently received market-driven salary adjustments will not be eligible for additional increases unless the increase received falls below what would have been received with implementation of a 4% general increase. In that case, the difference between what was actually received and what would be due with a 4% general increase will be implemented. Thereafter, remaining full-time classified and unclassified employees and eligible elected officials, shall be eligible for a 4% general increase from the pay reserve established herein for that purpose. Said pay adjustments will be effected with the first full pay period in FY ‘03/04 which begins on November 9, 2003.
- E. No Departmental Director or agency of the Lafayette City-Parish Consolidated Government shall be with authority to exceed appropriation levels which are identified departmentally within the budget adopted for the fiscal year without approval of the Lafayette City-Parish Council by ordinance.
- F. Inasmuch as the limited wording of any budget ordinance cannot cover all mathematical, computation, narrative circumstances resulting from salary and other appropriation adjustments, the Associate CAO-Finance & Management, through the Lafayette City-Parish President, is authorized and directed to comply with the dictates and intent of the adopted budget through whatever means he or she deems to be prudent and necessary and in order to insure that a balanced budget is adopted. Upon completion of budget finalization work each year, the Associate CAO-Finance & Management, through the Lafayette City-Parish President, shall prepare a written report to the Lafayette City-Parish Council detailing the amount and nature of any adjustments required to implement the adopted budget.
- G. The Lafayette City-Parish Consolidated Government’s budget and accounting practices assign to each department an amount designated as “Uninsured Losses” representing amounts to be transferred from each of the departments to the City-Parish Risk Management Program for uninsured losses incurred by the department. Such appropriations labeled “Uninsured Losses” shall not be transferred to any other line item in any department having such an appropriation.
- H. Salary appropriations for filled positions adopted in the annual budget shall be considered encumbered upon the implementation of the adopted budget.

- I. **Salaries-Promotion Costs Line Items:** Certain promotion costs have been funded in a special salary sub-account entitled “salaries-promotion costs” and assigned the sub-account code “099-01” within each department. Whenever an intra-departmental promotion occurs, an administrative budgetary revision may be effected to move the salary and benefit costs to the appropriate line items for that division; and to amend the Manning Table for the personnel position changes effective with the date of the promotion. Such changes to the budget shall be effected by administrative budgetary revision, a copy of which should be provided to the Office of the Clerk of the Lafayette City-Parish Council.
- J. **Overtime Line Items.** Where additional overtime by existing employees is required to fulfill the duties of vacant positions, funds necessary to pay salaries for the same may be moved from the salary account allocated for the vacant position to an overtime line item for that division, provided, however, that the funds moved to the overtime line item shall not reduce funds available for the vacant position to less than the amount that would be required to fill the vacant position for the remainder of the fiscal year. Such changes in the salary account and the overtime line item shall be accomplished by administrative budgetary revision, a copy of which should be provided to the Office of the Clerk of the Lafayette City-Parish Council.

SECTION 5: BE IT FURTHER ORDAINED that certain activities and services are jointly provided and funded in the Adopted Operating Budget with City of Lafayette funds and/or with Parish of Lafayette funds, and it is intended that the cost of such services and activities be shared equitably as set forth in the Allocation Schedule included in the “Budget Overview” section of the Budget Document. The Allocation Schedule reflects the financial obligations of the City and Parish funds for such services and activities, and the Associate CAO-Finance & Management, through the Lafayette City-Parish President, is authorized and directed to make such periodic transfers as necessary to comply with such schedule. It is agreed and understood that such transfers will be made by applying the percentages set forth in said Allocation Schedule to the final adopted budget amounts.

SECTION 6: BE IT FURTHER ORDAINED that, if any one of the provisions of this ordinance or the application thereof to any person or circumstance is held invalid or unconstitutional, such invalidity or unconstitutionality shall not affect other provisions or application of this Ordinance which can be given without the invalid provision or application, and, to this end, the provisions of this Ordinance are declared severable.

SECTION 7: All ordinances or resolutions or parts thereof in conflict herewith are hereby repealed.

SECTION 8: This ordinance shall become effective upon the signature of the Lafayette City-Parish President, the elapse of ten (10) days after receipt by the Lafayette City-Parish President without signature or veto, or upon an override of a veto, whichever comes first.

UTILITIES DEPARTMENT (440)

Subject: Utilities 2003-2004 Operating Budget

Ladies and Gentlemen:

In conformity with the requirements and purposes of both Section 9 of the Bond Resolution dated March 12, 1963 and Section 6.6 of the 1993 Revenue Refunding Bond Resolution, and the duties of the Consulting Engineer as described therein, the undersigned, as Consulting Engineer for the Lafayette, Louisiana Utilities System, hereby approves, both as to content as well as form, the Operating Budget for the twelve months ending October 31, 2004 regarding its compliance with Lafayette's financial covenants as contained in said Bond Resolutions. The subject Operating Budget includes the revenues and balances in the various funds and accounts including surpluses and expenditures of such revenues; fund accounts and surpluses for all purposes including operation, maintenance, rehabilitation, renewals, replacements, construction and purchase of materials, supplies and equipment; and the hiring of employees and services for the Sinking Fund Year beginning November 1, 2003 and ending October 31, 2004.

Included in these Operating Budget revenues is an increase in waste water service rates of 10 percent. These additional revenues are included for the full 12 months of the 2003-2004 operating year.

We note that the Capital Improvement Program (CIP) assumes a Revenue Bond issuance of \$42.0 million for the 2003-2004 operating year. The financial influences of these Bonds are not shown in the Operating Budget. These Bonds would be issued at the end of the operating year and therefore would not materially influence the projected fund balances as of October 31, 2004, nor the flow of funds as projected for the 2003-2004 operating year.

The Operating Budget recognizes a reduction in the required balance of the Bond Reserve Fund during the operating year due to the retirement of Revenue Bonds. Funds released from this reduction in the Bond Reserve Fund balance are fully utilized to meet the projected net operating results and effectuates a nearly balanced budget as shown in the following table.

The following statement summarizes and combines both the flow of funds (as prescribed by the Bond Resolution) and resulting fund balances of the subject Utilities Operating Budget for the 2003-2004 bond year, as well as the fund increase and decrease by individual utility (electric, water, sewer and telecom).
